

Manufacturer: Rieke Corporation  
Model: Stolz HZ32CR  
ASTM Type: IB

Description:

This is a one piece plastic continuously threaded closure on a metal can (Figure 1).

Figure 1

The closure is opened by squeezing a tab on the side of the closure and simultaneously turning it counterclockwise. The tab on the side of the closure (Figure 1) locks into a bayonet on the neck finish of the can to keep the package closed (Figure 2).

Figure 2

There is a plug inside the can neck finish that must be pulled out to dispense product.

The manufacturer's instructions on the closure are (Figure 3):

Figure 3

(There is a picture of the closure with the tab sticking out and an arrow labeled 1 pointing to it. There is a second arrow labeled 2 pointing in the counterclockwise direction.)
